

## Task 3

### Context

Class SurroundWithTryCatchRefactoring  
in package org.eclipse.jdt.internal.corext.refactoring.surround  
contains a method addEdits(TextChange, TextBuffer)

### Task

Use the appointed comprehension technique (either Read to Understand or Refactor to Understand) to dig into the addEdits method and the methods of the same class it calls. After 30 minutes, you will be asked to answer a number of questions about this piece of code.
